3. Agile Development
Rapid, transparent, and milestone-driven execution.

4. AI Integration & Testing
Rigorous testing ensures performance and reliability.

5. Launch & Scale
Smooth deployment with scalability planning.

6. Continuous Optimization
Ongoing improvements based on real performance data.

👥 Meet Our Founders

Section Intro

Headline:
The People Behind NextWe Studio

Paragraph:
NextWe Studio was built by a team that believes technology should solve real business problems — not create more complexity. Our founders bring together hands-on experience in sales, technology, and finance, working closely with clients to build solutions that truly make an impact.

We're not just builders — we're partners in your growth journey.

◇ Abinesh S Founder & CEO

Tagline:
Driving Growth Through Strong Relationships & Smart Strategy

Profile:
Abinesh is the energy behind NextWe Studio's growth story. With a natural strength in sales, client relationships, and business development, he has been instrumental in shaping the company from the ground up.

He strongly believes that great technology only matters when it delivers real business results. That mindset drives how he works with clients — understanding their challenges deeply, aligning solutions with their goals, and ensuring every project contributes to measurable growth.

Known for his hands-on approach and people-first mindset, he focuses on building long-term partnerships rather than one-time projects. His vision continues to guide NextWe Studio toward becoming a trusted digital and AI partner for ambitious brands.

What he focuses on:

- Building strong client relationships
- Scaling the company sustainably
- Identifying growth opportunities
- Ensuring real ROI for clients

◇ Sriram P — Chief Technology Officer (CTO)

Tagline:
Turning Complex Ideas Into Scalable Technology

Profile:
Sriram leads the technology backbone of NextWe Studio. Calm, detail-oriented, and deeply technical, he ensures every product we build is stable, scalable, and ready for real-world usage.

He enjoys solving complex technical problems and transforming them into clean, efficient systems. Whether it's a high-performance web platform, a custom SaaS product, or an AI-powered automation system, Sriram focuses on building technology that works reliably as businesses grow.

His practical approach to engineering helps clients avoid overcomplication while still staying future-ready. At NextWe Studio, he continues to push the team toward better architecture, smarter automation, and stronger performance.

What he focuses on:

- Scalable and clean architecture
- AI and automation integration
- System performance and security
- Future-ready tech decisions

◇ Harsha Carippa — Chief Financial Officer (CFO)

Tagline:
Bringing Financial Clarity to Scalable Growth

Profile:
Harsha ensures that NextWe Studio grows with financial discipline and long-term stability. With a strong eye for numbers and operational efficiency, he manages financial planning, budgeting, and strategic investments across the company.

He believes that sustainable growth comes from balancing ambition with smart financial decisions. His work helps the team invest wisely in technology, talent, and innovation while maintaining strong financial health.

Harsha's structured and analytical mindset supports data-backed decision-making, ensuring NextWe Studio continues to scale responsibly while delivering maximum value to clients and partners.

What he focuses on:

- Financial planning and control
- Cost optimization

- Risk management
- Supporting sustainable growth

◇ Closing Line
